

Empowering Citizens Through Digital Civic Action

Presented by Group A

Civix

Digital Civic Engagement Platform

Civix enables citizens to engage in local governance through petitions, voting, and tracking officials' responses. Join our platform to make your voice heard and drive positive change in your community.

Create & Sign Petitions

Easily create petitions for issues you care about.

Participate in Public Polls

Vote on local issues and see real-time community sentiment.

Track Official Responses

Follow updates from officials and monitor progress on issues.

Report Civic Issues

Submit structured reports for local problems with clear details.

Measure Community Impact

Track participation and outcomes to understand civic momentum.

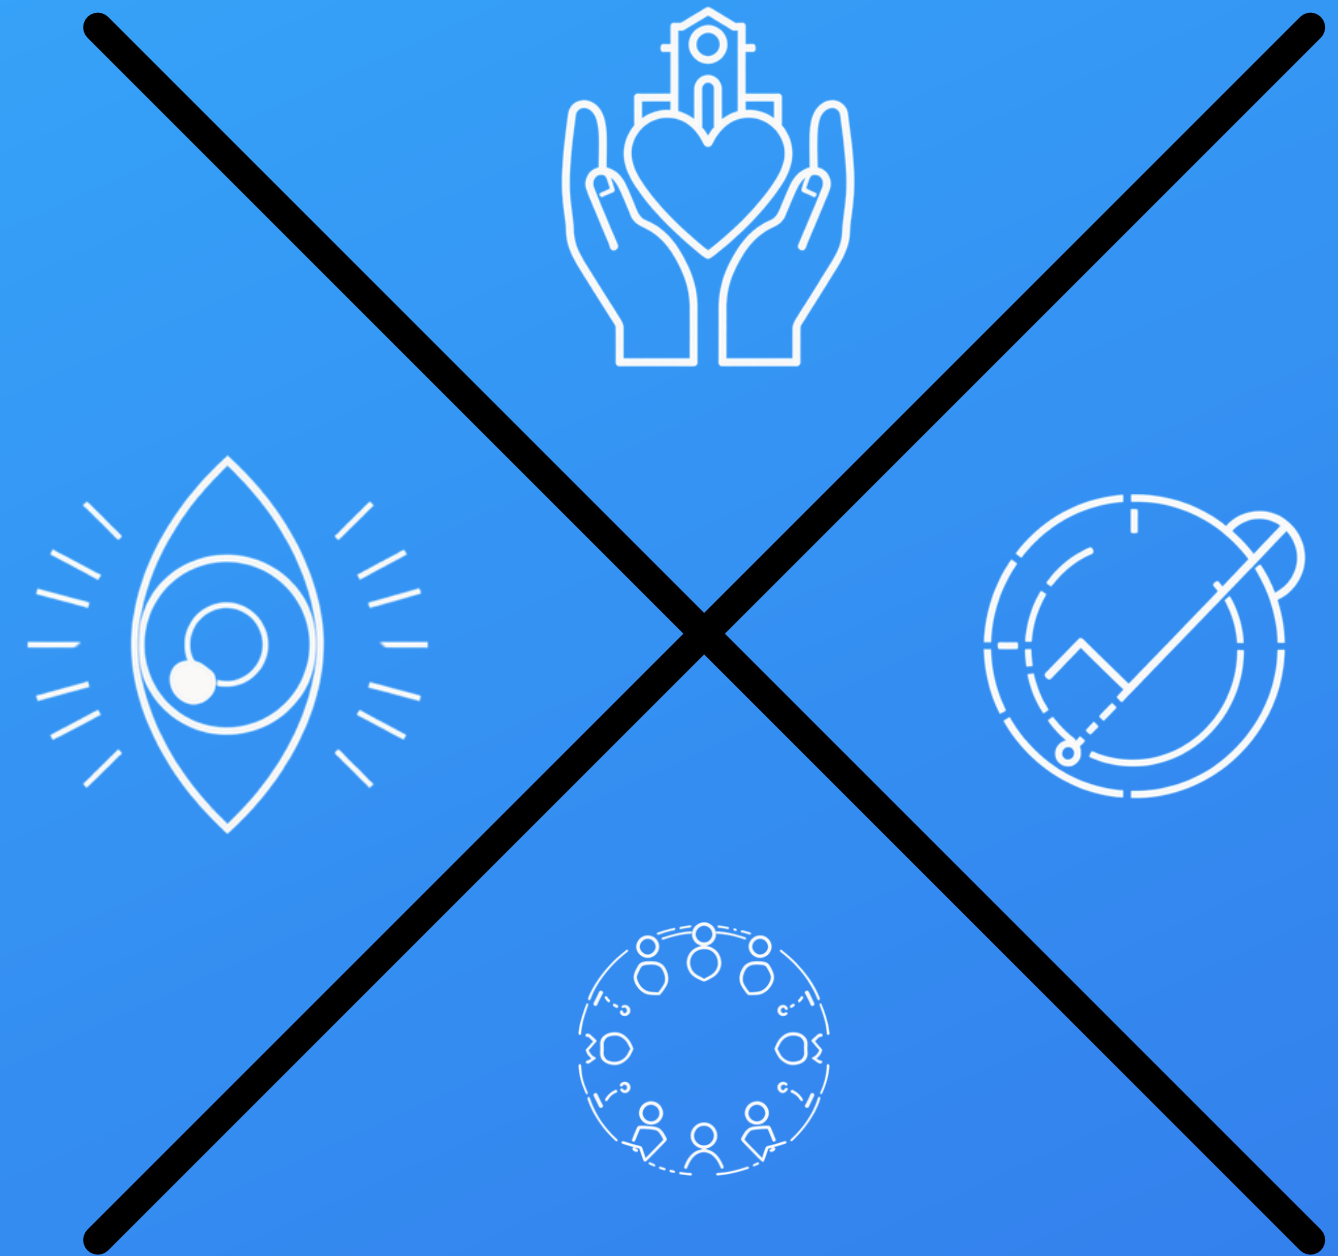

PROBLEM STATEMENT

- Low civic participation rates — ~67% voter turnout (India, General Elections)
- Fragmented, inefficient complaint and reporting systems
- Citizens feel unheard and disconnected from decision-makers
- ~25–30% citizens report trust in local government (varies by region, surveys)

VISION & MISSION

Vision: A transparent, participatory, citizen-driven civic ecosystem where every voice matters.

Mission: Make civic action simple, accessible, and trackable for all citizens.

SOLUTION OVERVIEW

Civix unifies all essential civic engagement tools in one powerful platform, making it simple for citizens to participate, track, and drive meaningful change in their communities.

AUTHENTICATION & PETITIONS

Secure, simple login protects your identity. Create, sign, and track civic petitions to organize collective voices and influence decisions effectively.

POLLS & REPORTS

Gather community opinions with one-user-one-vote integrity. Submit structured issue reports with location, category, and evidence for accountability.

DASHBOARD & SUPPORT

Track your civic activity and engagement impact in one personal dashboard. Access help channels for direct communication with platform support.

KEY FEATURES

Community Engagement Tools

USER JOURNEY

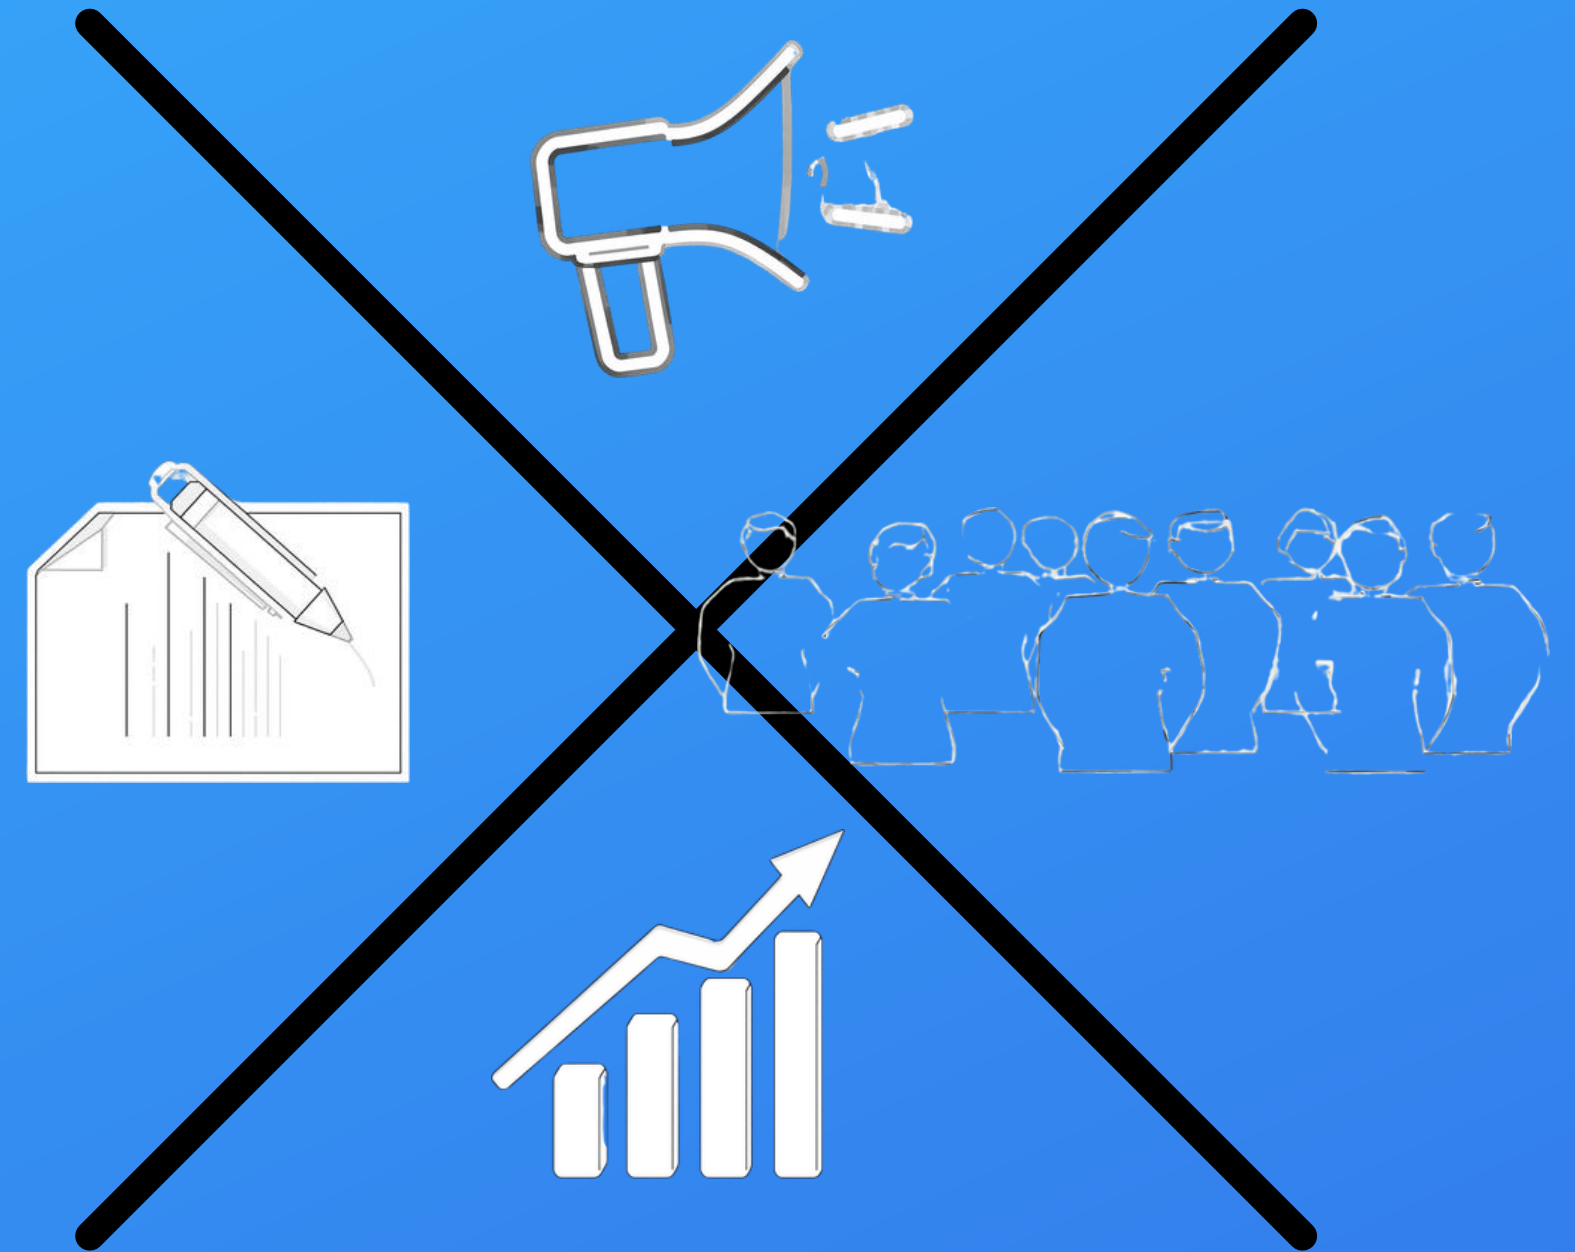

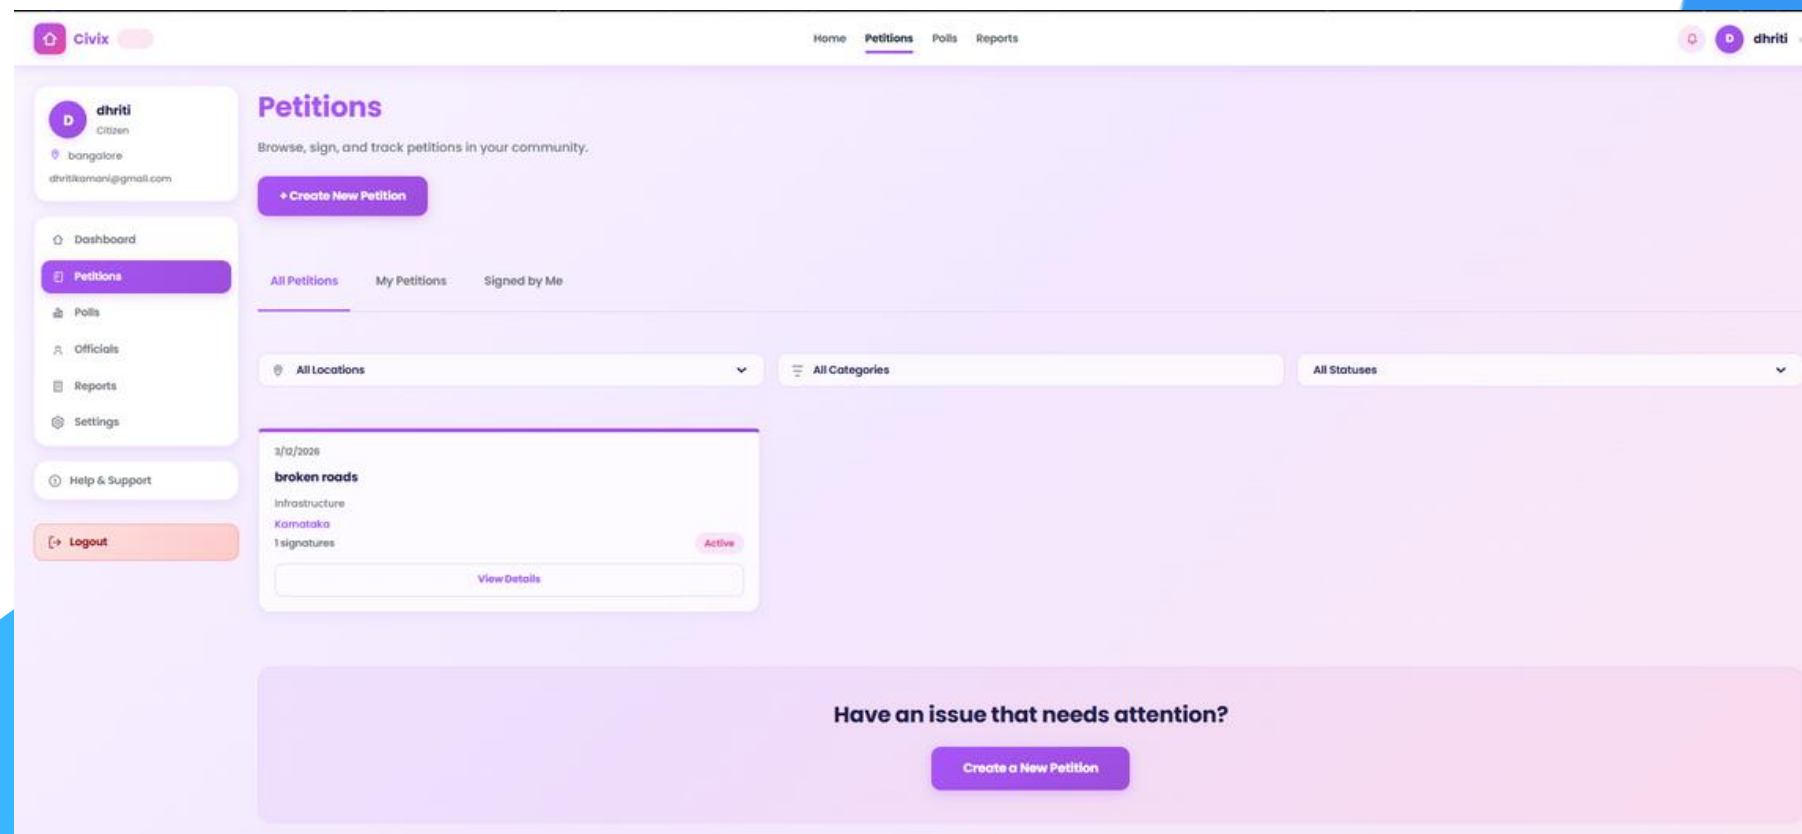

Follow the citizen's path through Civix:

1. Register/Login → Secure account access
2. Explore → Discover issues & discussions
3. Act → Create petitions, sign, vote in polls
4. Report → Submit civic issue reports
5. Track → Monitor impact via dashboard

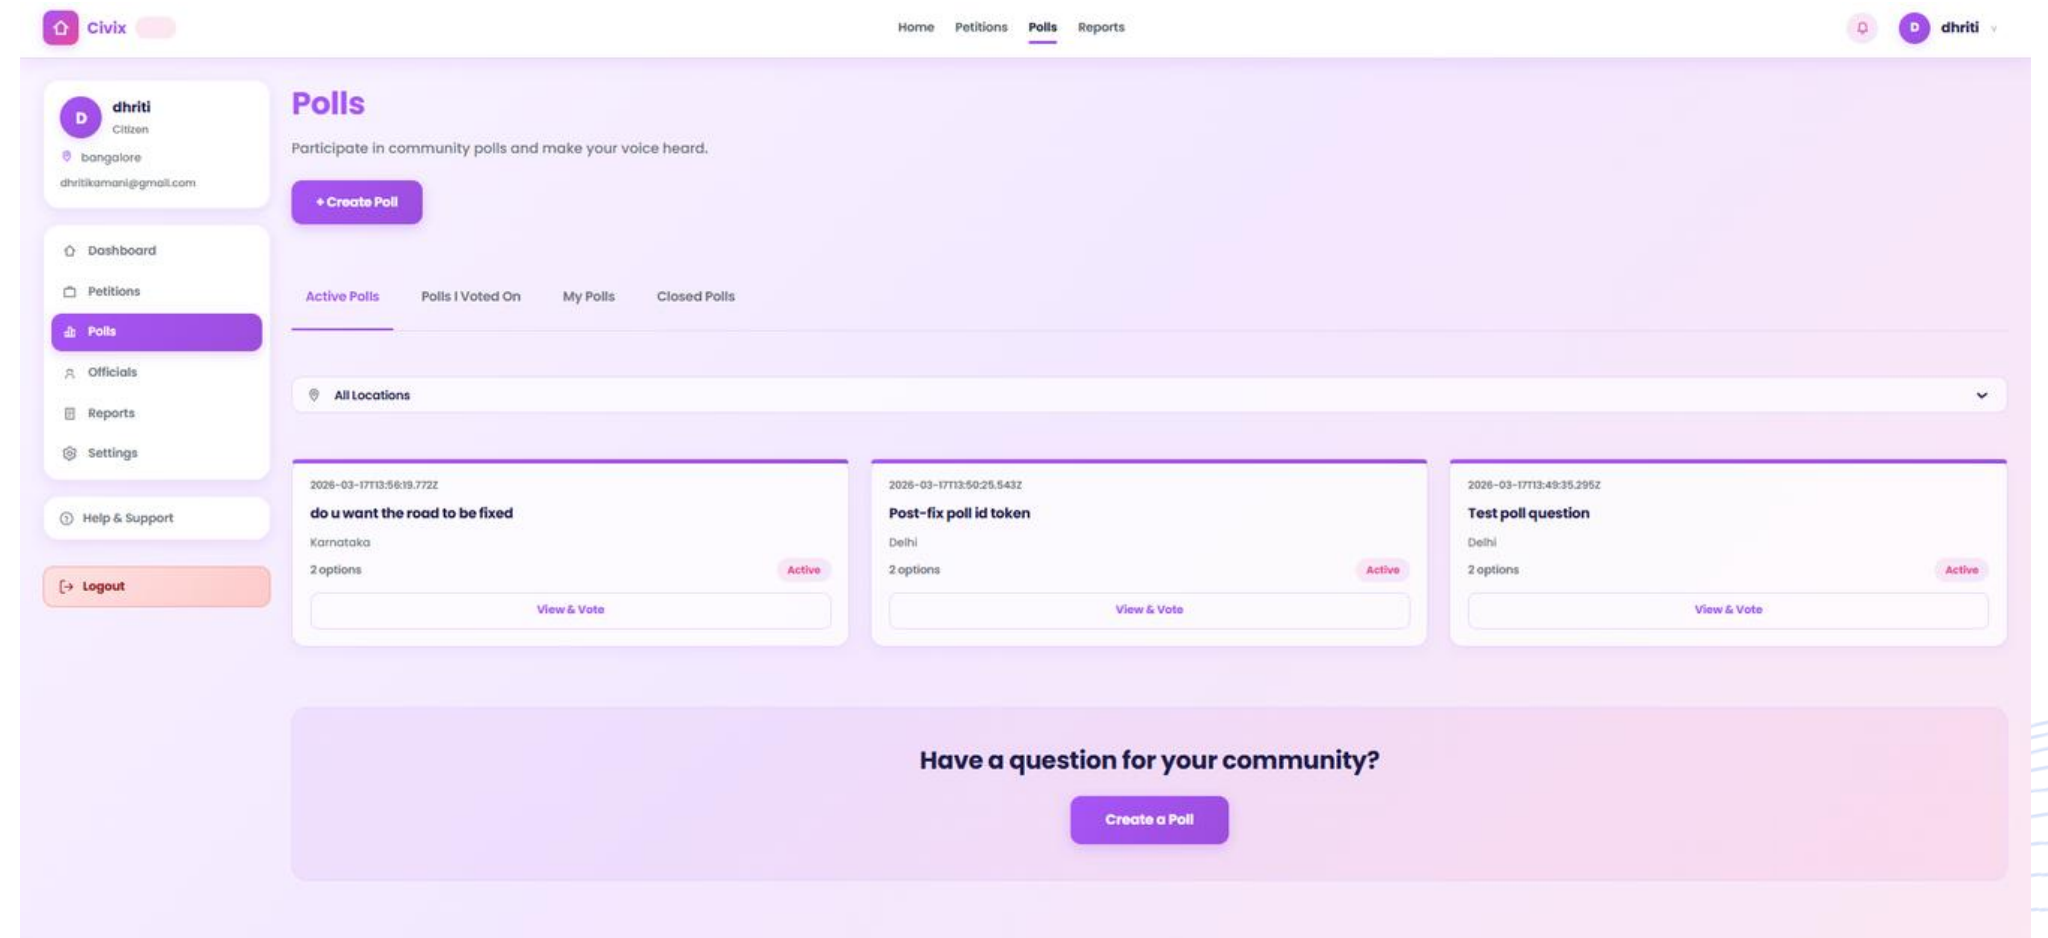

PETITION MODULE DEEP DIVE

Create petitions with title, description, category, and target audience. Track signatures with real-time progress visualization. Build community momentum and drive collective civic action.

POLLS MODULE DEEP DIVE

- One-user-one-vote integrity ensures fair, democratic participation
- Real-time trend visibility on poll results
- Supports local governance decisions and community feedback
- Quick, accessible way to capture community sentiment

REPORTING MODULE

Civix's structured reporting system empowers citizens to document civic issues with precision, track resolution progress, and hold authorities accountable transparently.

STRUCTURED REPORTS

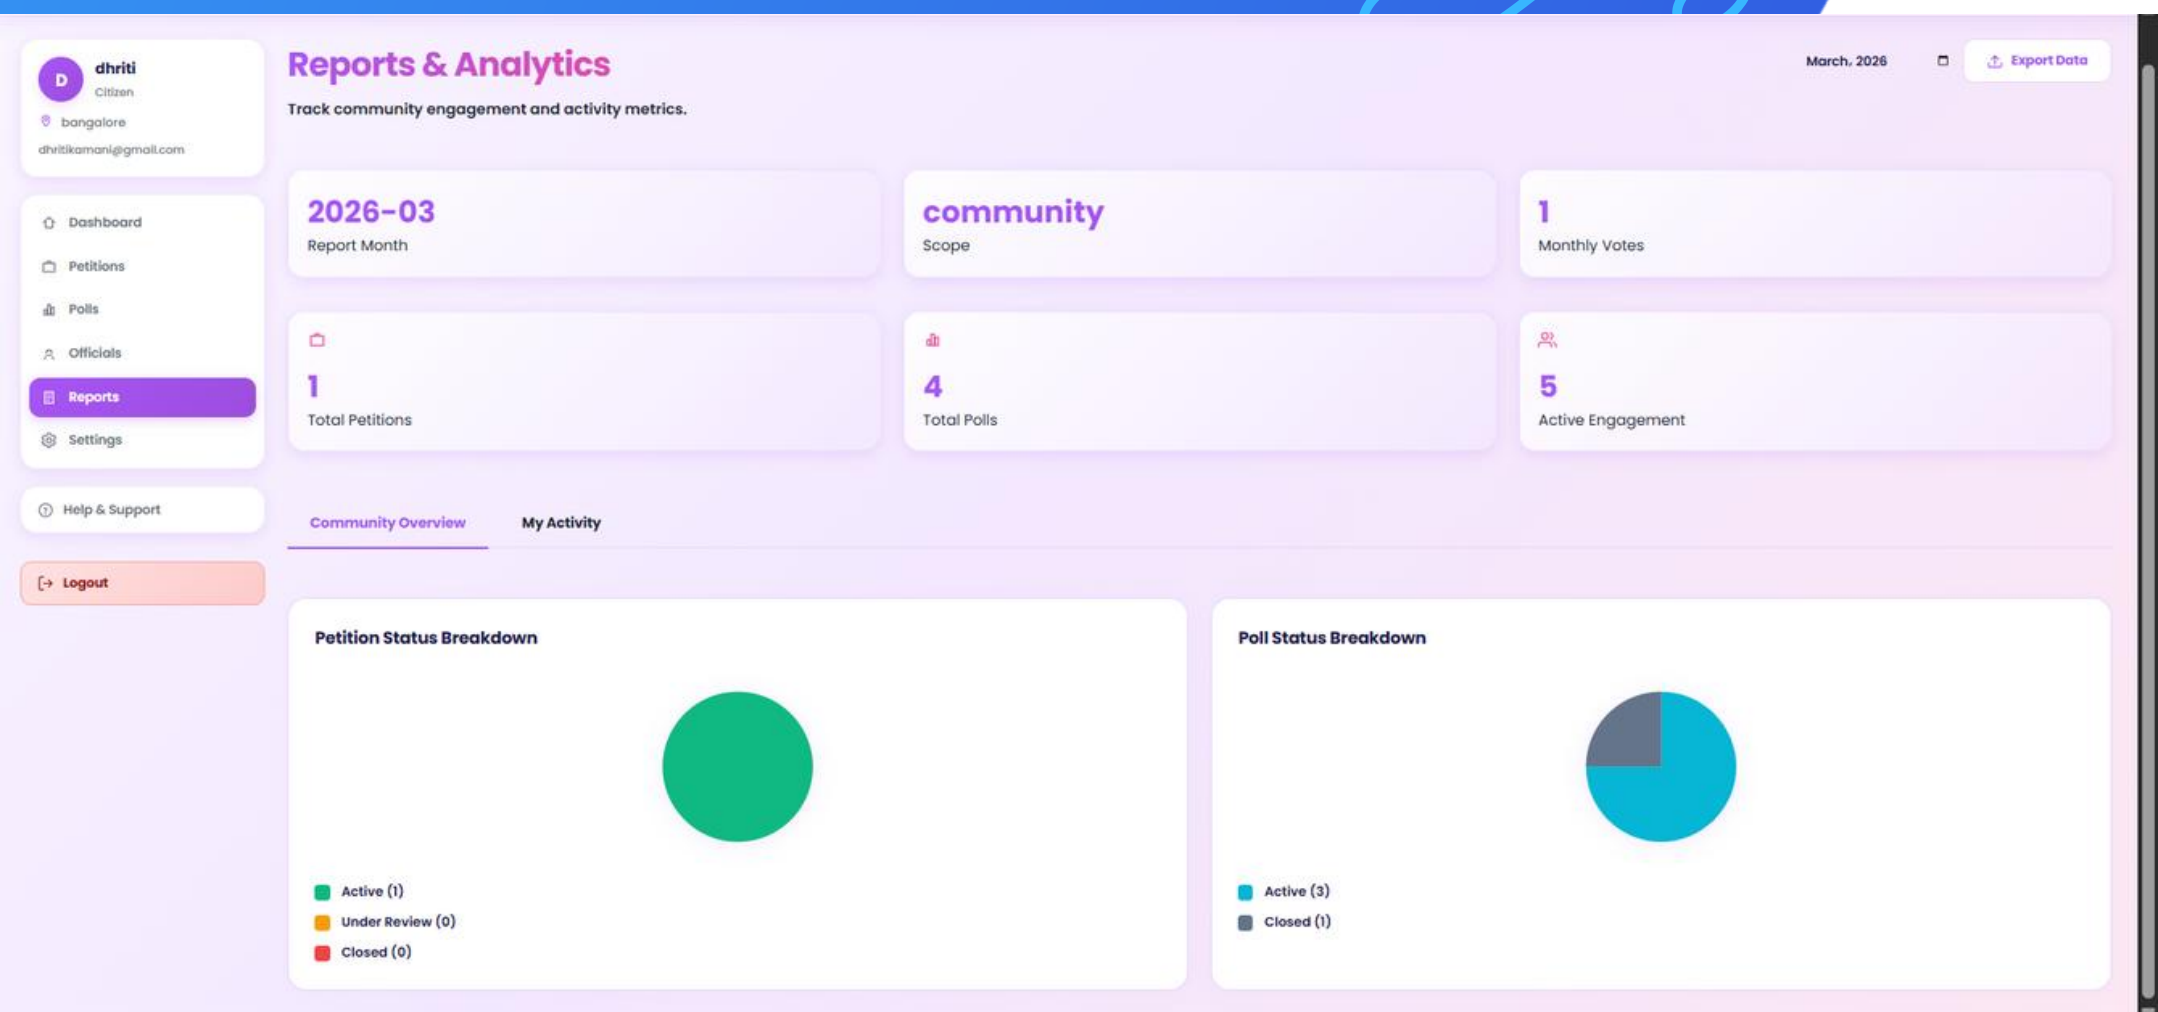

Submit detailed reports with location, category, description, and evidence attachments. Organized data ensures issues are properly categorized and routed to the right authorities.

REPORT LIFECYCLE

Track your report through clear status stages: Submitted → Under Review → Resolved. Real-time updates keep you informed at every step of the resolution process.

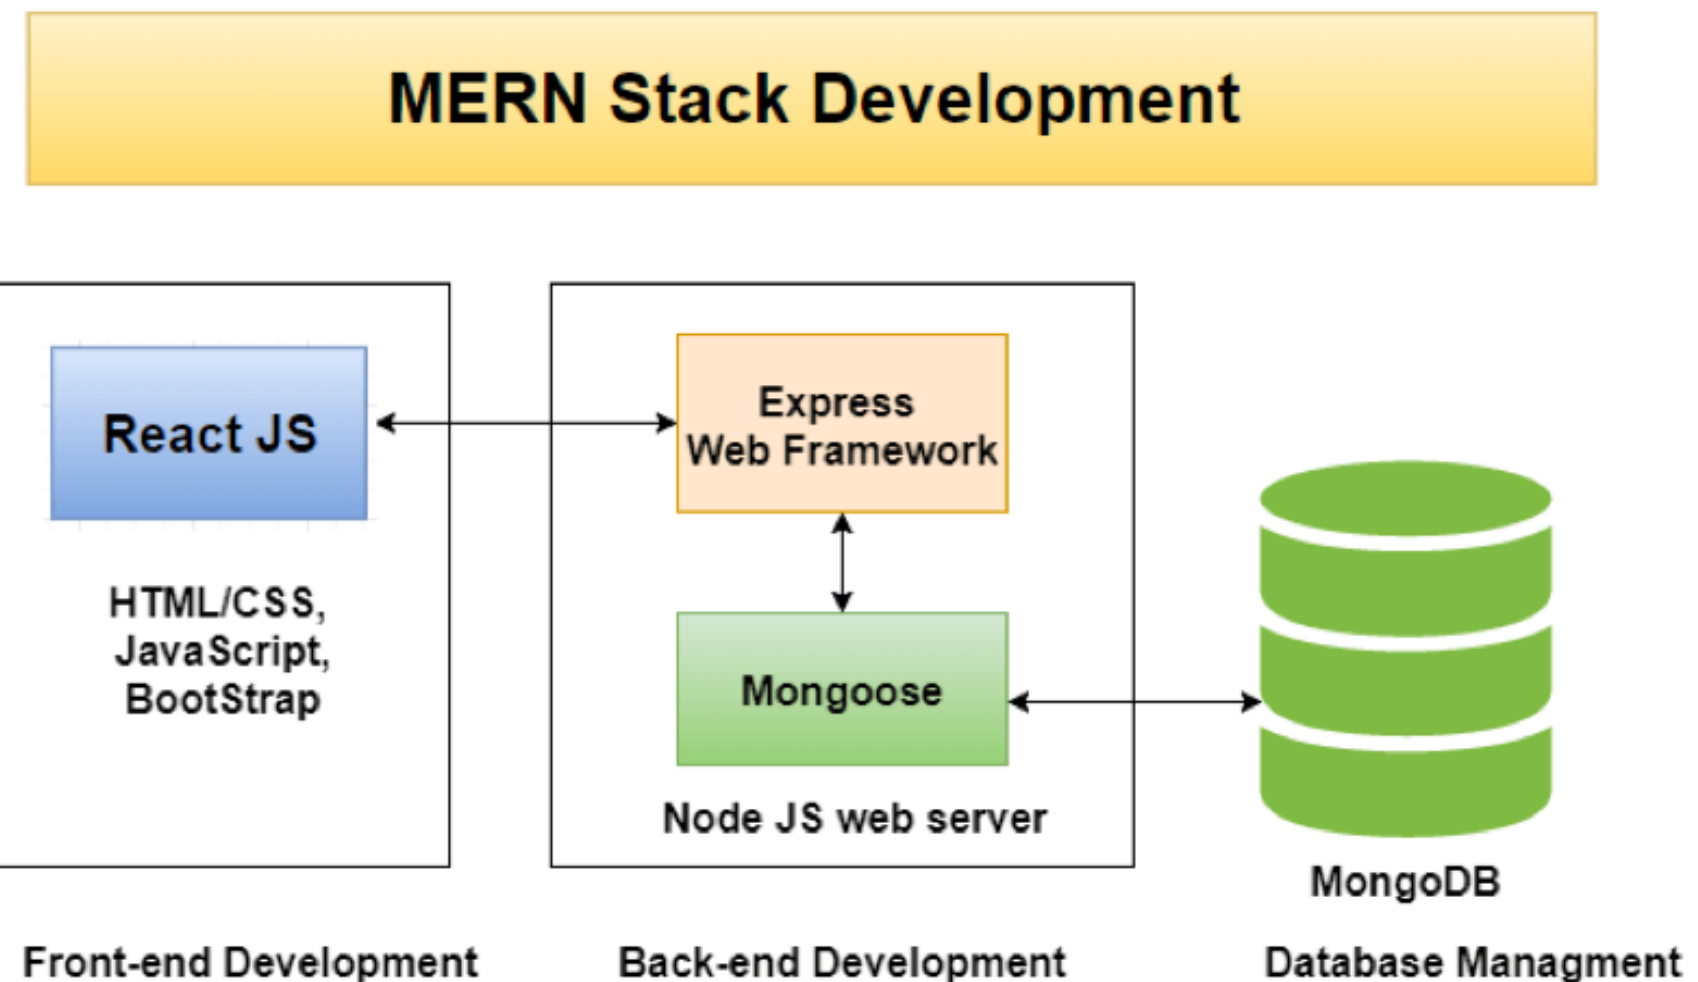

ACCOUNTABILITY TRACKING

Transparent tracking enhances accountability by making issue resolution visible to all stakeholders. Citizens can monitor progress and ensure timely responses from local governance.

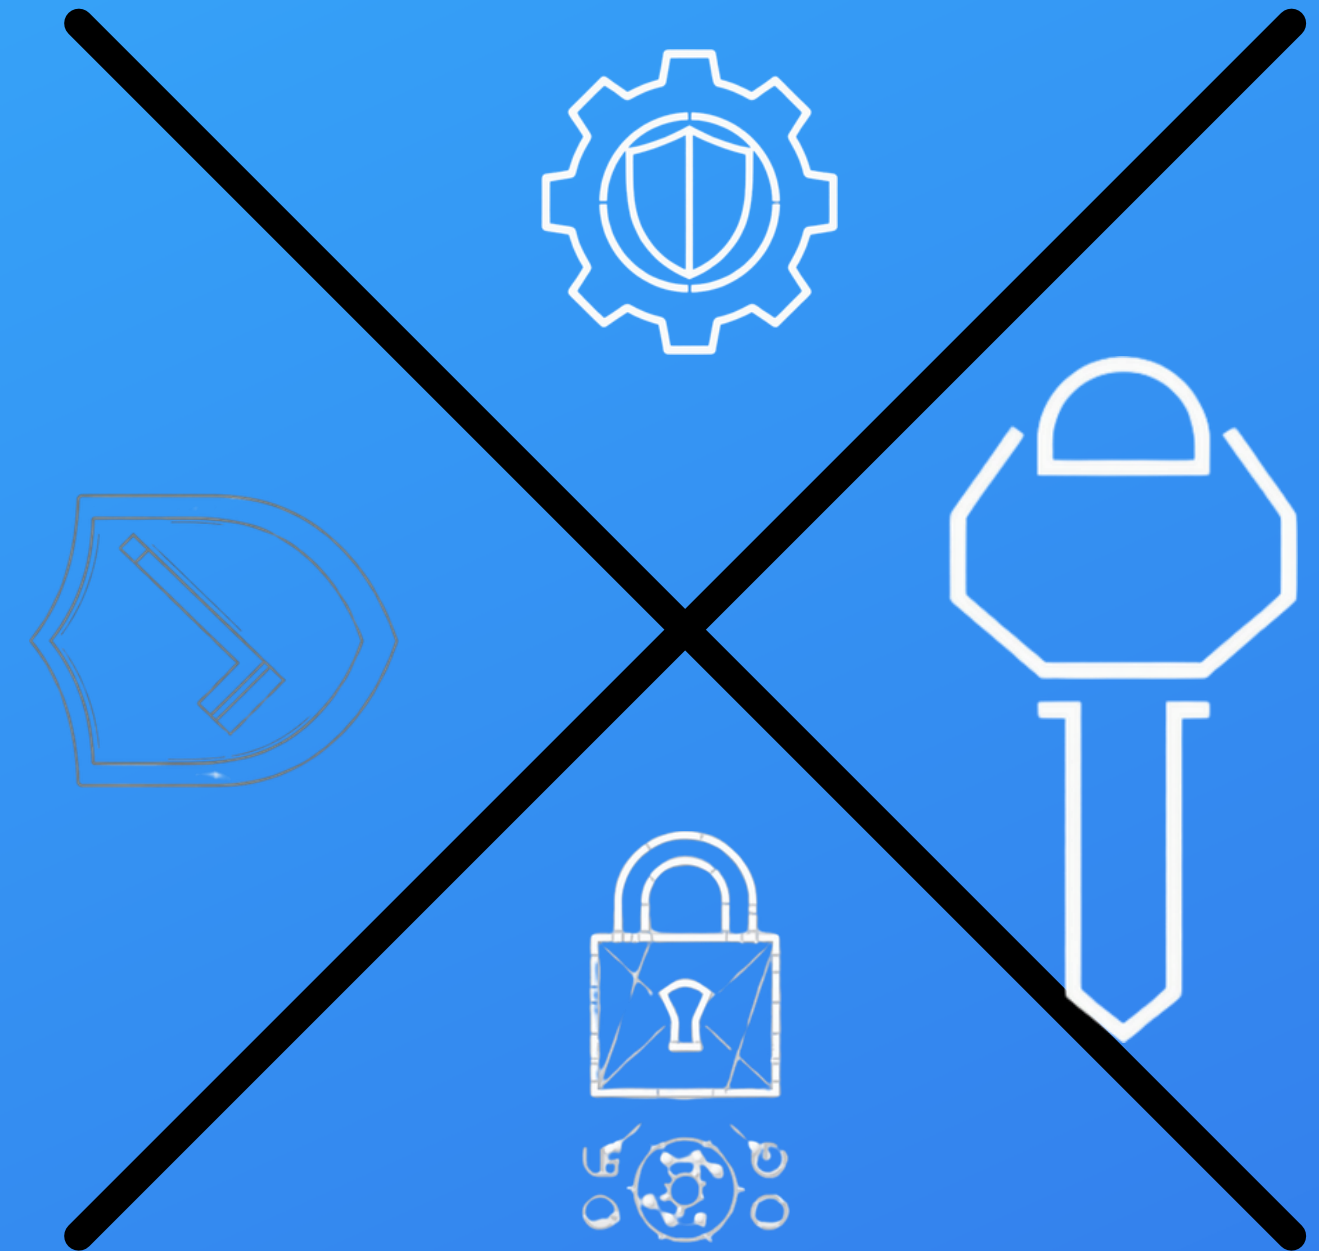

TECHNICAL STACK

Civix is built on a modern, scalable full-stack architecture: React with Vite for a fast, modular frontend, Node.js with Express powering RESTful APIs, and MongoDB for flexible data storage.

SECURITY AND RELIABILITY

- Authentication-protected routes ensure user data privacy
- Input validation and controlled API access prevent misuse
- Secure configuration management with environment variables
- Planned upgrades: rate limiting, role-based access controls, audit logs

IMPACT & USE CASES

Civix transforms how citizens engage with local governance, creating measurable improvements in participation and accountability across diverse communities.

STUDENT CAMPAIGNS

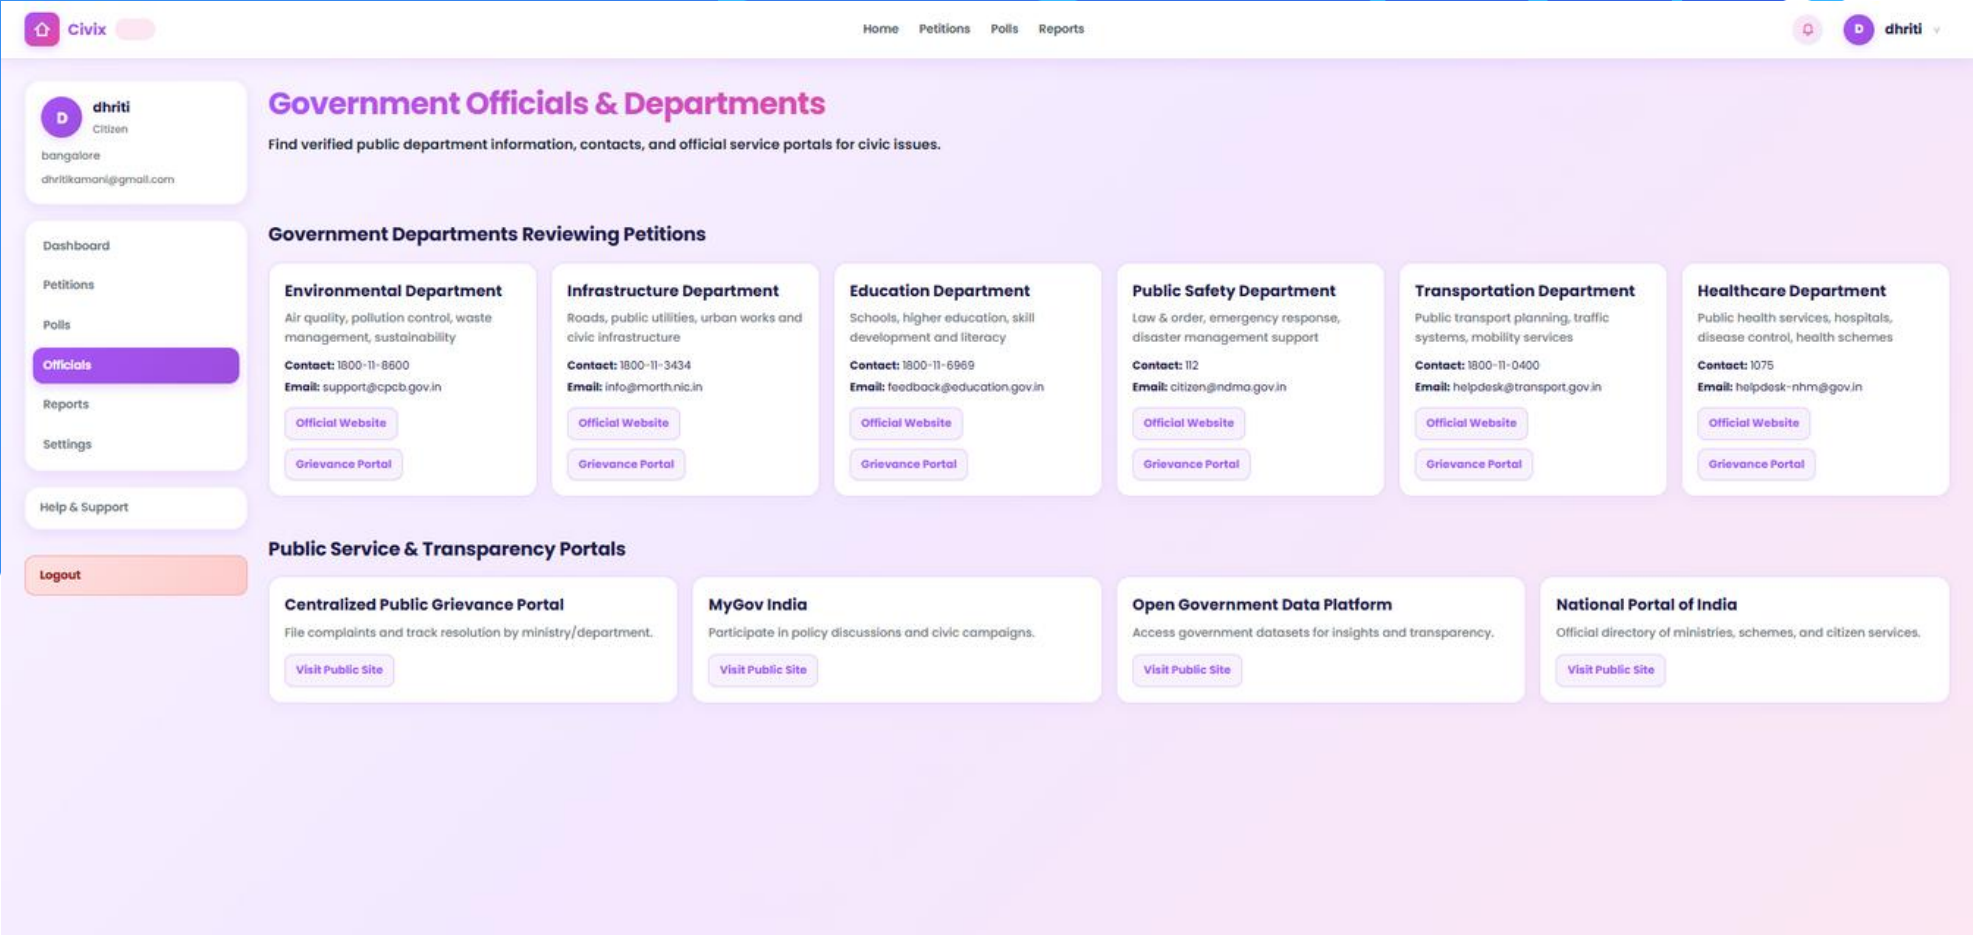

Students and community groups organize petitions and polls for campus and neighborhood initiatives, driving collective action and building civic leadership skills.

RESIDENT WELFARE

Resident associations track and report local issues like infrastructure, sanitation, and safety—with transparent status updates ensuring faster resolution.

POLICY INSIGHTS

Public opinion polls provide real-time community sentiment data, helping local officials make informed, citizen-backed policy decisions.

CHALLENGES, LEARNINGS & IMPROVEMENTS

Challenges: User adoption, verifying data authenticity, scaling moderation

Learnings: Full-stack integration, user-centric design, modular architecture

Improvements: Enhanced analytics, mobile app development, advanced moderation tools

Digital Civic Engagement Platform
